- MySQL/ MongoDB

SOFT SKILLS

- Teamwork
- Work Ethic
- Attention to detail

LANGUAGES

- English: Fluent
- Afrikaans

BRIEF BACKGROUND

I am a certified web developer with a diverse background that bridges the worlds of hospitality and technology. For over six years, I worked in the hospitality industry, where I honed valuable customer service skills and developed a strong work ethic. During this time, I discovered a passion for web development and programming, sparking my desire to pursue a career in tech. Prior to my time in hospitality, I earned a diploma in sports fitness from Northlink College, which helped shape my discipline and focus. Driven by my growing interest in coding, I made the decision to save up and enroll in a bootcamp with Hyperion Development to formally develop my programming skills. Today, I am working as a web developer at Trade245, a Forex brokerage, where I continue to build on my technical expertise and passion for web development.

WORK EXPERIENCE

Hussar Grill

WAITRON

2013–2021

- Delivered exceptional customer service in a fast-paced environment, ensuring a positive dining experience for all guests.
- Managed customer orders, answered questions about the menu, and provided recommendations to enhance the guest experience.
- Collaborated with kitchen and bar staff to ensure timely delivery of food and drinks, maintaining high standards of quality and presentation.
- Handled cash and card transactions accurately, processed payments, and maintained a clean and organized work area.

2021–present

Trade245

WEB DEVELOPER

- Developed and maintained internal dashboards and service desks using Vue.js and Express, ensuring a seamless user experience for internal stakeholders.
- Integrated various payment systems by building and handling API requests, streamlining withdrawal request processes.
- Utilized Google Cloud Platform (GCP) to deploy and manage applications, enhancing scalability and performance across internal tools.
- Created and optimized workflows with Google Apps Script to automate repetitive tasks, improving team efficiency.
- Conducted thorough reviews and testing of mobile apps, identifying and resolving bugs to ensure smooth functionality across devices.
- Collaborated with cross-functional teams to design and implement new features, focusing on usability, performance, and security.
